Biographies

Serge Lapierre, FCIA, FSA, is the global head of Liability-Driven Investments (LDI), Financial Engineering & Quantitative Research and senior managing director of the Quantitative Management Team for Manulife Investment Management. Serge and his Team are responsible for mandates that require a quantitative approach, such as LDI mandates and de-risking strategies, and for developing unique, cutting-edge quantitative products, tools and solutions.

Serge joined Manulife Investment Management when Standard Life’s Canadian operations were acquired by Manulife in January 2015. Prior to that, he held a similar role with the Quantitative Management Team from 2003 to 2015. Before Standard Life, Serge was a senior investment consultant for Aon Consulting from 1995 to 2003, and an actuarial analyst for Metropolitan Life Insurance Company of Canada from 1994 to 1995. He was also a lecturer in actuarial mathematics and quantitative finance at the Université de Montréal and at the Université du Québec à Montréal from 2000 to 2006. Serge is a Fellow of both the Canadian Institute of Actuaries and the Society of Actuaries.
